## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 8, 9, and 11-16 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 1-7 and 10, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 1-7 and 10 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the paper mailed on October 21, 2003 is hereby withdrawn.

### ***Allowable Subject Matter***

2. Claims 1-16 are allowed.

3. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any semiconductor device with a nanopore structure with its longitudinal axis parallel to the surface of an aluminum oxide substrate (between two insulating films) wherein the nanopores are formed between protruding top surfaces of the aluminum oxide substrate.

4. Kawasaki (JP 2001-83536A) discloses a means of forming a reflection electrode which uses an anodic oxidation process. However Kawasaki does not disclose forming

nanopores with its longitudinal axis parallel to the surface of an aluminum oxide substrate (which are between two insulating films) wherein the nanopores are formed between protruding top surfaces of the aluminum oxide substrate. Thus Kawasaki does not teach the applicant's device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
